Preschool Activities

The early years of preschool are all about enjoyment along with experiential learning...

Slumber Party

Using flashlights to read story books, whispering under bed-covers to playing board games in the wee hours. Slumber parties are our favourite with teddies in our arms!

Preschool Activities

Transport

Learning transportation is an important part of everyday life, it not only teaches children about what different vehicles are for and how they work, but it also teaches them about road safety when riding or travelling or walking.

Marine Wonder

Our young ones learnt about the aquatic life and the various oceanic animals that comprise of the marine ecosystem.

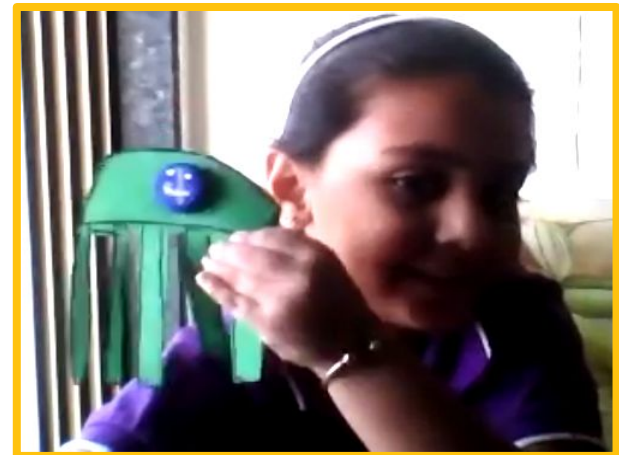

Sensory Walk

A fun activity for our children to explore new sensory experiences which will aid their motor skill development, hand-eye coordination and balance.

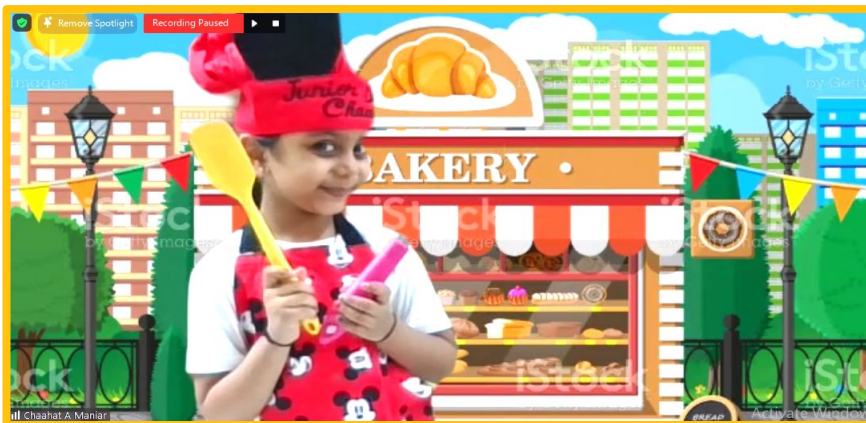

STEAM activity

Using vibrant and colourful bottle caps, our creative creators created beautiful marine animals as a part of their STEAM class.

Dress up as a profession

Who said one has to dress up fancy to rock the floor? These brilliant chefs and painters are here to debunk this notion by channeling their inner ambition and calling.
